ForTheRecord (FTR) is the global leader in providing digital recording and content management solutions for Justice and Public Safety venues. FTR's family of courtroom offerings represent reliable and cost effective solutions that capture and provide rapid access to digital audio and video recordings of proceedings across the court enterprise.

Guardsmark

www.guardsmark.com

Booth #405

Guardsmark, one of the world's largest security service firms, is an ISO 9001:2008 registered company. Visionary leadership directs our security professionals, earning us a reputation for unmatched excellence. We are the largest employer of former FBI agents in the world and have long served the courts through our Judicial Division.

HDR Architecture Inc.

www.hdrinc.com/civic

Booth #400

HDR has been responsible for the planning, design, and evaluation of more than 11 million square feet of court and court-related spaces. As design specialists, we understand that a courthouse is a unique building which presents unique challenges to each discipline of a design team. Courts facilities are often significant architectural icons in a community making design a significant issue in these facilities. While function is significant, the facility must also express trust, history, compatibility with the surrounding area and the value of the justice system to our communities.

Heery International

www.heery.com

Booth #506

Heery's professionals have designed of more than 20 federal courthouses and dozens of county and municipal court complexes. We will work within your budget to deliver a project that achieves your design aesthetic, maximizes operational / space efficiencies, and enhances security. We bring an exceptional level of expertise to all assignments.

Infax

www.infax.com

Booth #411

docketCall by Infax is the electronic docket display solution. The automated system interfaces with existing court management software to provide real-time docket and schedule information on professional LCD monitors. docketCall helps patrons quickly find their courtroom without assistance. It can also display building directories, maps, visual pages, and emergency alerts.

INTRESYS–TurboCourt

www.turbocourt.com

Booth #403

TurboCourt technology empowers states' AOC, metropolitan and rural courts. *Our recession-proof approach enables any court to become more productive, effectively deploy resources, sustain and expand services.* TurboCourt™ is the next-generation E-filing and Paper-On-Demand platform for all case types - saves clerks' time, provides tools for Judges, empowers filers and removes frustration for all!

Jefferson Audio Video Systems (JAVS)

www.javs.com

Booth #408

JAVS is a provider of a/v court documentation systems designed to fit any courtroom. JAVS systems are providing the official court record in more than 2,500 courtrooms in the U.S. and international markets. Microphones, cameras, and evidence presentation equipment are combined with JAVS intelligent audio/video switching and control system to record and log court proceedings.

Justice Systems

www.justicesystems.com

Booth #505

Justice Systems has provided solutions for over a quarter century with qualified professionals from the judiciary and the latest technology following the latest standards (NIEM). Helping courts today with case management, online and over the counter payments, collections and so much more, shows Justice Systems has *The Right Solutions for the Justice System.*

Laserfiche
Booth #509

www.laserfiche.com

Laserfiche® creates simple and elegant enterprise content management solutions that help organizations run smarter. Since 1987, numerous law enforcement agencies, prosecutors and courts have used Laserfiche to transform their paper archives into a powerful digital resource that guarantees the integrity of case files, improves clearance rates and reduces the overall cost-per-case.

Liberty Recording
Booth #612

www.libertyrecording.com

Liberty Recording provides cost effective digital recording solutions. The Liberty Court Recorder, a Microsoft certified for Windows application, is the price/performance leading digital court recording solution featuring ease of use, reliability, and flexibility. www.fact.ncsc.dni.us

NACM is a nonprofit professional association of those working in the field of court administration with almost 2,000 members worldwide. Quarterly publications: the Court Manager and Court Express. FACT is a consortium of private sector companies and senior court representatives dedicated to strengthening the dialogue between courts and their providers of technology. FACT is an ad hoc division of NACM.

National Center for State Courts
Booth #601

www.ncsc.org

The National Center for State Courts (NCSC) is dedicated to improving the administration of justice by providing leadership and service to courts. NCSC accomplishes this by providing education, training, technology, management, and research services to the nation's state courts and courts around the world.

nCourt
Booth #607

www.ncourt.com

nCourt is a national court and government technology services company. Our services streamline information processing and reduce physical traffic and call volume into the court and shrink your docket. The program saves private citizens time previously spent dealing with the traffic ticket payment process, and empowers courts to accept credit card payments over the Internet to pay fines.

New Dawn Technologies

www.justware.com

Booth #507

New Dawn Technologies strives to solve unique issues facing the needs of the criminal justice community. JustWare | Court enables offices to manage their workflow, case management, document automation, financial tracking and reporting needs. JustWare | Court also tracks all essential name and case information for every individual involved in a case.

PSA-Dewberry

www.psa-dewberry.com

Booth #406

PSA-Dewberry is a full service design firm specializing in justice facility architecture. With a staff of 275 located in 9 offices nationwide, PSA-Dewberry works with local, state and federal court systems. PSA-Dewberry's leadership in court design ensures clients the most current applications of security and technology, as well as fresh ideas to meet the challenges of courthouse architecture.

Selectron Technologies, Inc.

www.stigov.com

Booth #510

Celebrating 50 years in business, Selectron Technologies offers an extensive suite of best-in-class voice, web, and mobile field applications. Automating inbound and outbound communication, processing payments, and integrating with staff's desktops, our solutions empower courts to reduce costs, better manage staff workloads, and improve services for their citizens.

Smiths Detection

www.smithsdetection.com

Booth #602

X-ray inspection systems and explosives/narcotics trace detectors from Smiths Detection can help keep weapons, contraband, explosives and other threats from being brought into a courthouse, making the environment safer for all. In January 2009, US Marshals Service selected the HI-SCAN 6046si X-ray system to help protect federal courthouses across the US.

SUSTAIN

www.sustain.net

Booth #605

Sustain's Web-based eCourt follows over 25 years of experience providing successful case management systems to courts in ten states and three countries.

Tyler Technologies

www.tylertech.com

Booth #502

Tyler Technologies, with more than 7000 clients, is the largest U.S. company dedicated to providing software and services solely to the public sector. Tyler's Courts & Justice division offers fully-integrated judicial solutions through its Odyssey® suite—facilitating more effective business procedures and improving efficiency across the justice process including criminal, traffic, civil, family, probate and juvenile courts.

Veri-Core, LLC

www.Veri-Core.com

Booth #404

Veri-Core provides the next generation of digital court recording solutions for capturing your audio/video record. Veri-Core systems delivers an accurate record of any *live event*. Veri-Core is committed to designing and delivering innovative modular and expandable hardware and software solutions to exceed the client's requirements and expectations.
